Constellation of Signs is a playful and thought-provoking art installation being created for the Pennington Road Bridge in Bootle. Developed by Re-Dock and artist Alan Dunn, in partnership with LinacreOne and Liverpool Biennial, Constellation Of Signs will become a landmark installation along the route of the Leeds-Liverpool Canal.

The work is made from 117 aluminium traffic and information signs mounted on the wall next to the bridge. Each sign represents a distilled version of one of over 300 memories, ideas and suggestions for the future of the Leeds-Liverpool Canal, gathered from the local community during our community workshops and activity days.
